A settlement has been reached in a class action lawsuit against Overlake Hospital Medical Center and Overlake Medical Clinics, LLC (collectively "Overlake") relating to a cyberattack against Overlake's computer systems that occurred in December 2019 (the "Data Incident"). The computer systems possibly affected by the Data Incident potentially contained certain personal and protected health information relating to current and former Overlake patients. The plaintiff claims that Overlake was responsible for the Data Incident and asserts claims such as: violation of the Washington State Consumer Protection Act and negligence. Overlake denies all of the claims and says it did not do anything wrong.
